*“Public agencies succeed at providing the best roads for the money when they can base their choice of maintenance and improvement activities that achieve minimum lifecycle cost on good information”
—Joseph Nestle, Director of the Bureau of State Highway Programs for WisDOT.*

To Our Valued Customers

Thank you

Delmore Consulting would like to express our sincerest “Thank You” to the Town of Watertown. Thank you for seeing the value in our company and the services we offer. We recognize your commitment to fiscal responsibility and dedication to creating stability in an ever-changing environment. Our commitment to you has not ended with the delivery of a final product. We promise continued availability to assist you with interpretation of this report and all included data. We value you, and look forward to our partnership for years to come.

Fiscal Responsibility

Delmore Consulting has provided you, the Town of Watertown, with the tools to accurately manage your largest budget item with fiscal responsibility. We have created an easily manageable and updateable road database that you are able to utilize in your entire road-related decision-making process. **Delmore Consulting** will ensure that you know how to use and interpret all of this information to make the most informed decisions possible.

Stability

It is a known fact that town boards are ever changing; however, with the tools and organized information that **Delmore Consulting** provides, the Town of Watertown can easily share important infrastructure information with newly elected members creating consistency and stability in decision making. The Town of Watertown can continue to make informed decisions in the future by utilizing this professional strategic plan that prioritizes road projects to meet immediate concerns and long-range goals, thereby preventing missed opportunities, lost longevity and increased cost.

Company Information

Delmore Consulting

Mission

Delmore Consulting believes that when given the proper tools, our customers can become effective managers of their road systems. Our mission is to provide our customers with long lasting road maintenance planning to achieve short and long-term goals at a minimal cost.

Who We Are

Delmore Consulting offers comprehensive road and asphalt maintenance services to a variety of customers including Towns, Villages, Home Owners Associations and private businesses. We provide our customers with the knowledge to accurately and responsibly manage their asphalt and road systems with an easily updated and administered electronic portfolio that includes surface evaluations, maintenance schedules, inventories, and mapping.

About Us

Jeff Delmore, owner and operator of **Delmore Consulting** has twenty-two years of asphalt road construction and sales experience. As a child, Jeff developed an interest in asphalt road construction while riding along with his father, who has been worked on rural roads for forty-six years. After going into the field, himself, Jeff started in construction and later became a regional manager / salesman. As a salesman, he frequently worked with Town board members who inherited road-related problems and had a limited insight of the nature of roads. He realized that if he could share his expertise in more depth, he would empower his customers to make a positive, informed impact on their budget while still maintaining and improving asphalt conditions. Jeff truly enjoys all aspects of what it takes to improve the quality of Town roads, and looks forward to working with you. In 2016 Magdalena Jaworska joined Jeff as a partner. She brought almost twenty years of experience in management and accounting as well as an expertise in mapping using Google and ArcGIS software.

Report Summary

Town of Watertown

In order to compile this report, **Delmore Consulting** has evaluated 59 miles of road in the Town of Watertown. Approximately 24 miles (41.3%) have an asphalt surface, 34 miles (57.8%) have a Seal Coated surface, less than 1 mile (0.9%) are Gravel or Concrete surfaced roads. Almost 100% of the roads in the Town of Watertown have a width of at least 18 feet. With 85% being 20-22 ft wide. This is the most common road width.

We would consider the majority of roads to be above average. This did not happen overnight. This is the result of disciplined planning and a belief in doing things right the first time. One of the most important factors in determining this, is the structure of your roads. The structure of your roads are nice and wide. This allows for good ditching, which allows for good drainage. The sub-base and main base have been well built to support the road surface. Without good drainage and a solid road base, no road will hold up. We consider the Town of Watertown a great example for other towns to follow.

The following report is an overview of our findings.

Road Condition by Age of Asphalt

Town of Watertown, 2017

Decade	Number of Miles	Percentage of Road System	Average PASER Rating
1970-1979	4.34	7.4%	5.94
1980-1989	3.29	5.6%	5.95
1990-1999	12.79	21.8%	6.34
2000-2009	12.28	20.9%	6.71
2010-2017	25.93	44.2%	7.66
Total	58.63	100%	6.52

Source: Based on information entered into WISLR database.

This table shows the age of the asphalt base according to the information from the WISLR database and information gathered by Delmore Consulting. Most of the roads (over 87%) are newer roads, constructed between 90's and presence

Road Condition per Mile

Town of Watertown PASER Surface Rating Summary, 2017

PASER Score	Number of Miles	Percentage of Road System	Description
9 & 10	6.68	11.4%	Excellent
8	8.73	14.9%	Very Good

Town of Watertown - 2017				
Average PASER Rating by Decade				
Decade	Feet	Miles	%	Average Rating*
1970'	22,908	4.34	7.4%	5.94
1980'	17,380	3.29	5.6%	5.95
1990'	67,525	12.79	21.8%	6.34
2000'	64,827	12.28	20.9%	6.71
2010'	136,922	25.93	44.2%	7.66
Total	309,562	58.63	100.0%	6.52

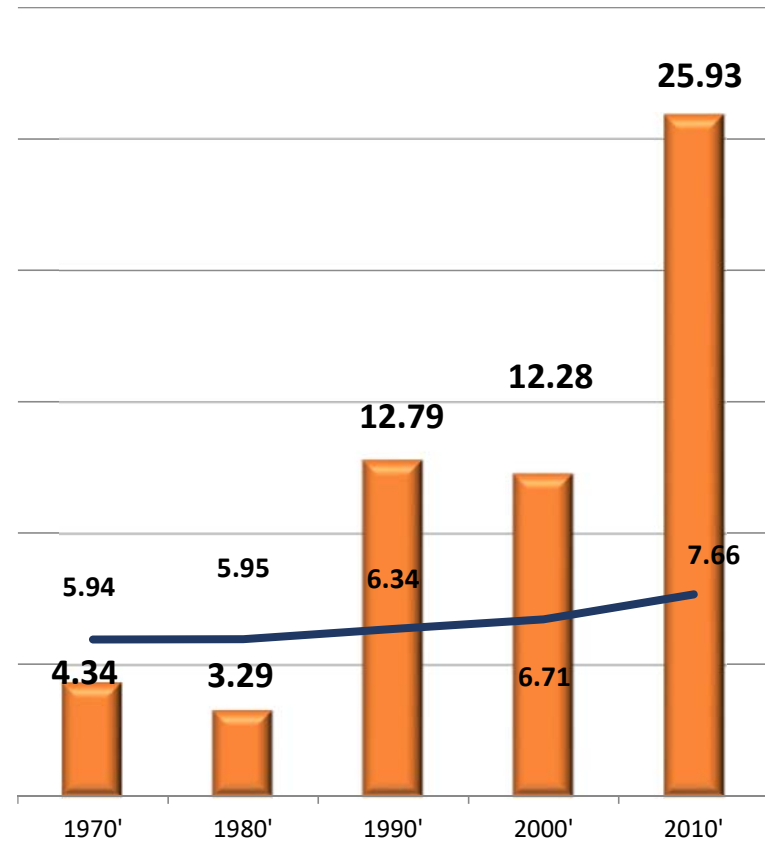

* Average ratings are figured by length, not by the number of sections. This is much more accurate method.
