

# WIS 16 – Pavement Replacement Construction Kick Off Meeting

5:30 P.M. TO 6:30 P.M.  
Tuesday February 25, 2025  
Ixonia Town Hall

The Wisconsin Department of Transportation (WisDOT) has contracted with Hoffman Construction Company to rehabilitate WIS 16 from Main Street in Watertown to Rock River Road in Ixonia. Work will include removing the existing pavement surface, asphalt milling, grading, base course, guardrail replacement, culvert replacements, storm sewer, municipal utility improvements, asphalt paving, pavement marking, signing, and a bridge deck replacement over the Rock River and a roundabout at the intersection of Main Street & WIS 16 in Watertown.

## **TRAFFIC IMPACTS & DETOUR**

WIS 16 will be closed to thru traffic during construction. Access to residents and businesses within the work zone will be maintained from the nearest sideroad throughout construction. Anticipate delays for construction traffic, and material deliveries throughout the project

While access to residents and businesses will be maintained, traffic will not be able to cross the Rock River Bridge during bridge deck replacement operations.

The detour for this project will capture eastbound WIS 16 traffic at WIS 26 and will route traffic south on WIS 26 to I-94, then east on I-94 to WIS 67 in Oconomowoc. From there traffic will head north until it intersects with WIS 16 (see detour map on back).

## **PROPOSED SCHEDULE**

Work will commence on Monday March 17, 2025, and will last until the fall of 2025.

## **FREQUENTLY ASKED QUESTIONS**

- Garbage service: Will continue during construction. Any changes to which side of the road to place the cans will be communicated to the residents.
- Mailboxes: Will be removed during the start of construction and left in the front yards. Contractor will coordinate with post office and notify residents of off-site mailbox location.
- School Bus Pick-up/Drop-off: Will continue during construction.
- Planting / Growing / Harvesting Season: Coordinate with project staff for access accommodations for farm equipment.
